AGENTIC AI FOR PRIVATE EQUITY

Your Private Equity AI Agent Squad — sourcing, underwriting, and closing your next platform.

Not a prompt pack. Not a build-it-yourself kit. PEHero is a full agentic system already wired into your deal flow — scanning targets, running QoE, building LBO models, and drafting IC memos while your team focuses on the call.

PLATFORM

One system. Every stage. All your deal data.

PEHero lives where your deal team already works. Twenty-two specialist agents share a single model of your pipeline, your portfolio, and your market. Each agent has its own tools and prompts — and they pass artifacts between each other without the associate re-keying anything.

7 AGENTS

Deal Sourcing & Screening

Find proprietary deals before they hit the auction.

5 AGENTS

LBO Underwriting Engine

Teaser to IC-ready LBO model in hours.

5 AGENTS

Due Diligence Stack

VDR audited, QoE validated, risks surfaced early.

4 AGENTS

Capital & LP Relations

IC memos, teasers and LP updates your GP will sign.

4 AGENTS

Portfolio Operations

Drive EBITDA growth and value creation post-close.
