

PEHero User Guide

Your Private Equity AI Agent Squad

One chat interface, every PE workflow — sourcing through exit.

pehero.chat

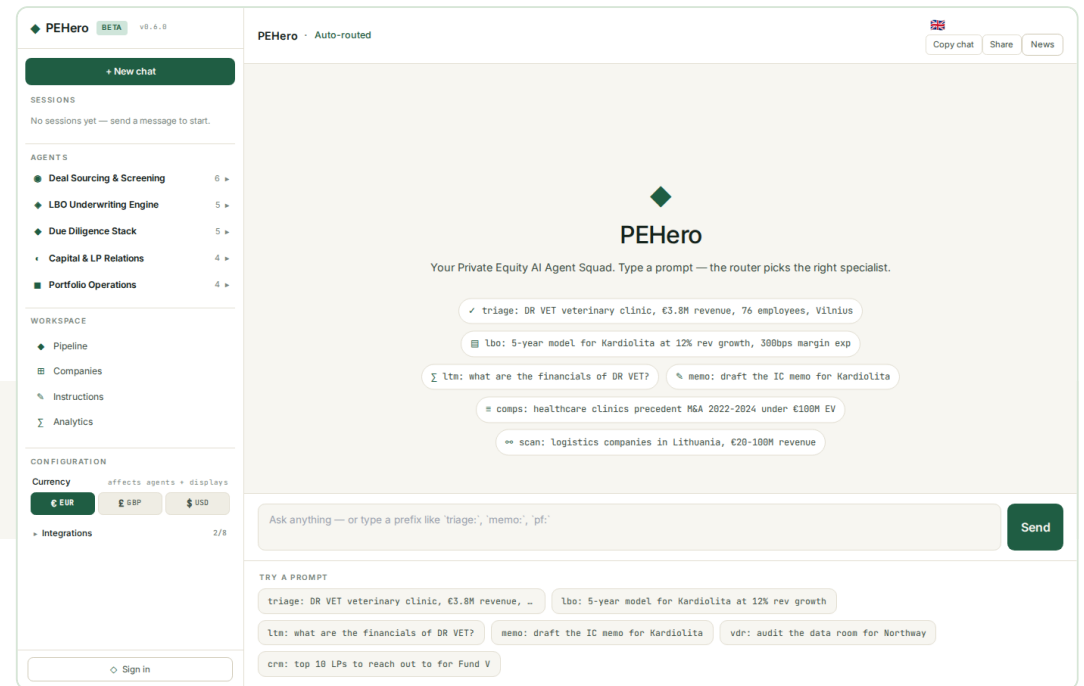

Contents

- Getting Started** · Sign in, first chat, agent routing
- Chat** · 3-pane layout, agent categories, tables, charts, memo export
- Pipeline** · Kanban board, triage scoring, deal workspace, risk register, milestones
- Companies** · Fuzzy search, sector filters, company detail
- Investors** · Family office & investor prospecting, wealth data, company links
- Portfolio** · Dashboard, analytics, KPIs — 3-tab submenu
- Valuation** · DCF, comps, precedent, LBO simulator with WACC calculator
- Data Room** · Upload, index, RAG-powered document search
- Analytics** · Text-to-SQL, auto-charting, schema-aware queries
- Instructions** · Live-edit agent prompts — no redeploy needed
- Training** · PE Hero RPG game for deal-making practice
- Configuration** · Currency, language, integrations, profile

Getting Started

1. **Open the app** at pehero.chat/app
2. **Sign in** with Google or email/password (bottom of the left pane)
3. **Type a prompt** in the chat input — PEHero routes to the right specialist agent automatically
4. **Browse agents** in the left pane under the 5 PE workflow categories

First time? Try: “Triage Northwind Systems for our fund” — the Deal Triage agent runs a full strategic fit analysis.

Chat — 3-Pane Layout

The main interface has three panes:

- **Left pane** — sessions, agent browser (5 categories), workspace navigation, configuration
- **Centre pane** — conversation with streaming responses, inline tables, charts
- **Right pane** — live PE news feed (PE Hub, Buyouts Insider, PE International, FT, Bloomberg)

Agent routing

Two ways to invoke a specialist:

- **Prefix** — type `triage:`, `lbo:`, `memo:` etc. before your question
- **Auto** — describe what you need in plain English; the router picks the best agent

The screenshot displays the PEHero interface, which is divided into three main panes. The left pane contains navigation and configuration options. The center pane shows a table of deal data and a chat input field. The right pane displays a live PE news feed.

Left Pane:

- PEHero **BETA** v0.4.0
- + New chat
- SESSIONS: No sessions yet — send a message to start.
- AGENTS:
 - Deal Sourcing & Screening 6 >
 - LBO Underwriting Engine 5 >

Chat — Agent Categories

PEHero’s specialist agents cover every stage of the PE deal lifecycle:

Category	Agents	Example Prefixes
Sourcing	Market Scanner, Deal Triage, Comp Finder, Owner Intent, Outreach, LOI Writer, Deal Teaser	scan:, triage:, comps:, loi:
Underwriting	LTM Normalizer, LBO Model, Pro Forma, Debt Stack, Return Metrics	ltm:, lbo:, pf:, debt:
Diligence	VDR Auditor, Contract Abstractor, Legal, Ops DD, ESG Risk	vdr:, contracts:, legal:
Capital	IC Memo Writer, LP Update, Fundraising CRM	memo:, lp:, crm:
Portfolio Ops	Pricing Optimizer, EBITDA Variance, Value Creation, Customer Churn	pricing:, opex:, vcb:, churn:

Chat — Tables & Data

When agents return tabular data (financials, comps, models), the table appears inline with:

- **First 5 rows** shown — click **See more** to expand
- **Copy CSV** — copy to clipboard
- **Download CSV** — save as .csv file
- **Download XLS** — save as formatted .xlsx with styled headers
- **Visualize** — auto-generate a Plotly chart from the table

Chart types (auto-selected)

- Time series <20 points → **bar chart**
- Time series 20+ points → **area/line chart**
- ≤8 categories → **pie chart**

8 categories → **treemap**

- Multiple numeric columns → **grouped bar chart**

The screenshot displays the PEHero interface, which is a chat-based tool for financial analysis. The main chat window shows a conversation with an agent named 'PEHero'. The agent has provided a table of LTM financials for Kardiolita, UAB, covering the period from 2020-01-01 to 2024-12-01. The table has four columns: MONTH, REVENUE, EBITDA, and ADJ. EBITDA. The data shows a steady increase in revenue and EBITDA over the five-year period.

MONTH	REVENUE	EBITDA	ADJ. EBITDA
2020-01	926,933.08	111,231.97	111,231.97
2020-02	926,933.08	111,231.97	111,231.97
2020-03	926,933.08	111,231.97	111,231.97
2020-04	926,933.08	111,231.97	111,231.97
2020-05	926,933.08	111,231.97	111,231.97

The interface also includes a sidebar with navigation options, a configuration section for currency and integrations, and a news feed on the right.

Chat — Memo Export

For memo-type agents (IC Memo, Deal Teaser, LP Update, LOI, Outreach Email):

- **Preview PDF** — opens formatted PDF in a new tab
- **Download PDF** — saves the PDF
- **Download Word** — saves .docx with headings, tables, bullets

Share & Copy

- **Copy** — copy the full chat to clipboard (markdown)
- **Share** — generate a read-only link anyone can view without signing in

The screenshot displays the PEHero IC Memo Writer interface. On the left, a sidebar contains sections for 'SESSIONS', 'AGENTS' (listing Deal Sourcing & Screening, LBO Underwriting Engine, Due Diligence Stack, Capital & LP Relations, and Portfolio Operations), 'WORKSPACE' (listing Pipeline, Companies, Instructions, and Analytics), and 'CONFIGURATION' (showing currency as EUR and integrations). The main chat area shows a conversation with 'PEHero - IC Memo Writer' where a legal memo draft is being generated. The draft includes sections for Regulatory/License, Change-of-Control, Legal DD Memo, Corporate Records, and Litigation. Below the draft are buttons for 'Preview PDF' and 'Download Word'. A text input field at the bottom allows for additional prompts. On the right, a 'News' sidebar lists recent articles such as 'Hegseth Takes Swipe at European Defense Partners (Video)', 'Hegseth Speaks at Shangri-La Dialogue (Full)', and 'Samsung's AI Bonuses Divide Workers'.

Pipeline — Kanban Board

The pipeline board shows all companies across deal stages:

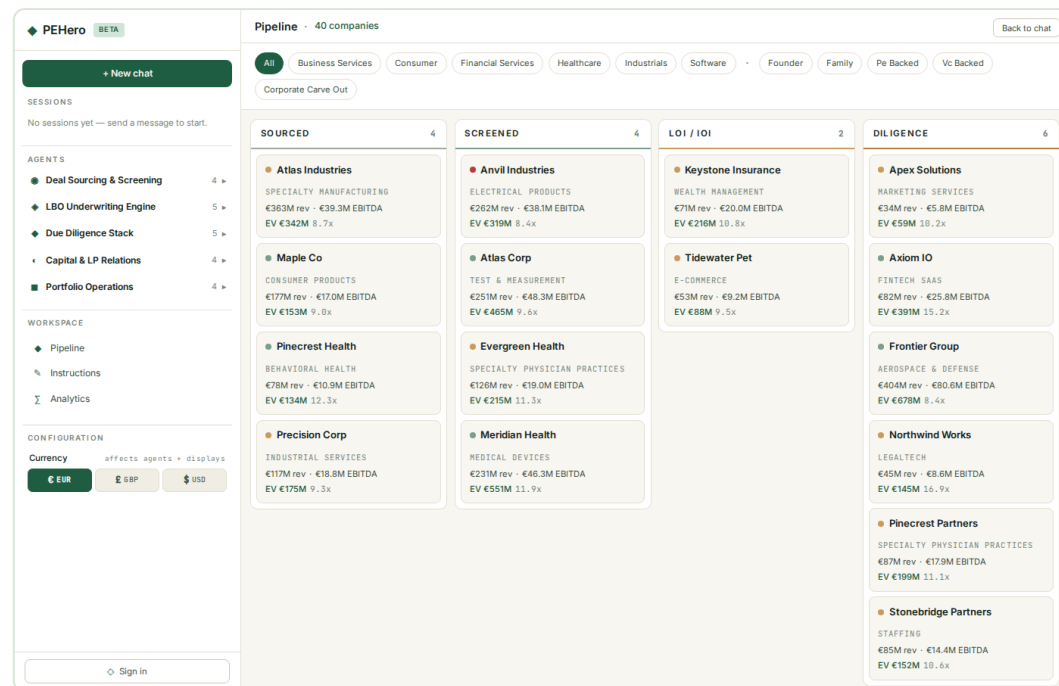

Sourced → **Screened** → **LOI** → **Diligence** → **IC** → **Signed** → **Closed** → **Held** → **Exited**

- Filter by **sector** or **ownership** type
- Cards sorted by **triage score** (highest priority first)
- Each card shows revenue, EBITDA, EV, multiple, seller-intent dot, and **triage badge**

Triage scoring

Every company gets a weighted priority score (1.0–5.0):

- **40%** Impact · **30%** Strategic fit · **20%** Feasibility · **10%** Urgency
- Badges: **High** (≥ 4.0 , green) · **Medium** (≥ 3.0 , amber) · **Low** (< 3.0 , grey)

Pipeline — Deal Workspace

Click any card to open the deal workspace:

- **Centre** — per-deal chat (ask agents about this specific company)
- **Right pane** — deal brief with live data:

Deal brief sections

- **Company info** — sector, sub-sector, stage, triage score, HQ, employees, founded, ownership
- **LTM financials** — revenue, EBITDA, margin, ask EV and multiple
- **Top customers** — largest contracts by annual value
- **DD findings** — severity-coded results from VDR Auditor
- **Risk register** — P×I scored risks with category and mitigation
- **Milestones** — progress bars, due dates, owner, status (done/overdue/open/blocked)

The screenshot displays the PEHero interface for a deal workspace. The left sidebar contains navigation menus for Sessions, Agents, Workspace, and Configuration. The main canvas area is titled "Pipeline" and "Ave Vita" klinika, UAB · SOURCED". It features a large text input field with a "Send" button and a "TRY A PROMPT" section with several pre-defined prompts. The right pane, titled "Deal brief", provides a comprehensive overview of the company, including its HQ, employees, founded date, ownership, LTM financials, top customers, and DD findings.

PEHero — Your Private Equity AI Agent Squad

2026-06-23 · pehero.chat

Investors

Investor prospecting at `/app/investors` :

- **2,500+ persons** across Estonia, Lithuania, and Latvia
- Search by name, filter by country
- Each person card shows **wealth rank**, company links, ownership stakes
- Click any person for detail view with full company portfolio
- Data from Baltic business registries and wealth rankings

Portfolio — Dashboard

The Portfolio section (`/app/portfolio`) has a **3-tab submenu**: Dashboard, Analytics, KPIs.

Dashboard tab

- **Value Bridge** — waterfall chart showing NAV progression (entry → growth → margin → multiple → exit)
- **Portfolio Health** — donut chart of margin bands (healthy >20%, watch 10-20%, risk <10%)
- **KPI cards** — total companies, total NAV, average MOIC, average hold period
- **Top holdings** — ranked by NAV with inline sparkline bars

Portfolio — Analytics

Analytics tab

- **Bubble chart** — companies plotted by revenue (x) vs EBITDA margin (y), sized by EV
- **Heatmap** — sector × deal-stage matrix showing company counts
- **Sector allocation** — table with company count, total revenue, avg margin per sector
- **Full holdings table** — sortable list with all portfolio companies and key metrics

Portfolio — KPIs

KPIs tab

- **Revenue & EBITDA trends** — annual aggregated lines from monthly financial data
- **Margin trends** — EBITDA margin over time vs 20% target line (dashed)
- **Growth trends** — year-over-year revenue growth as bar chart

All charts are interactive (Plotly) — hover for values, zoom, download as PNG.

PE Valuation Simulator

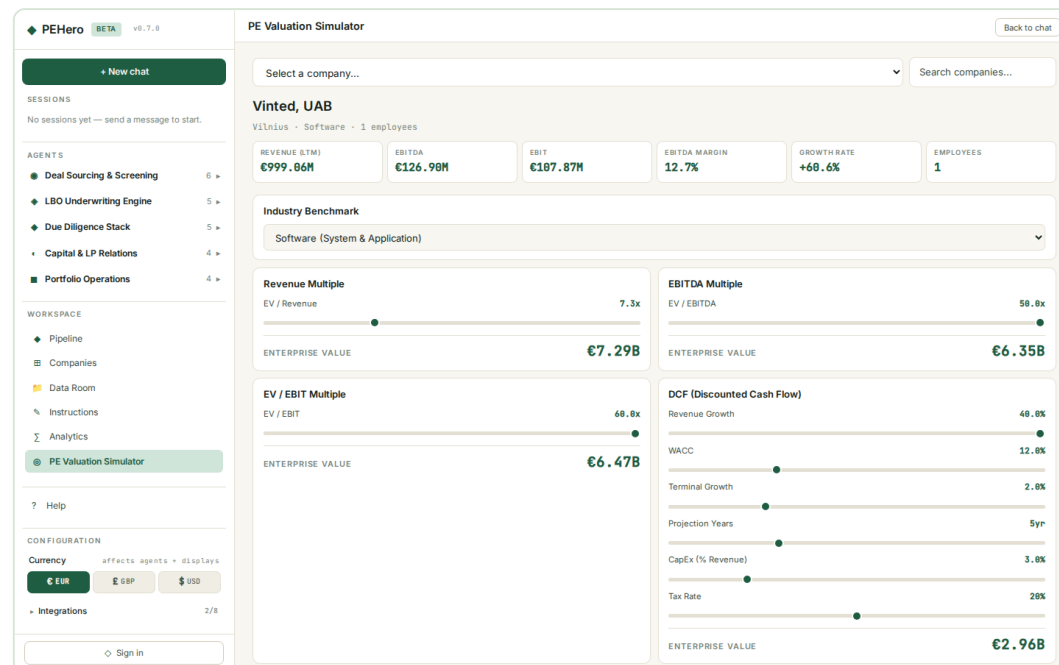

Interactive company valuation with four methods at `/app/valuation`:

1. **Select a company** from the dropdown (type to search)
2. The simulator loads financials and auto-selects an industry benchmark

Four valuation methods

- **EV/Revenue** — revenue × industry sales multiple (96 Damodaran industries)
- **EV/EBITDA** — EBITDA × industry EV/EBITDA multiple
- **EV/EBIT** — EBIT × industry EV/EBIT multiple
- **DCF** — configurable revenue growth, WACC, terminal growth, projection years, CapEx, tax rate

Each method has **interactive sliders** — adjust any parameter, all valuations update instantly.

Valuation — WACC & Equity Bridge

WACC Calculator

Build the discount rate from first principles: risk-free rate, levered beta, market risk premium, country risk premium, size premium, D/E ratio, cost of debt, tax rate. Click **Apply to DCF**.

Equity Bridge

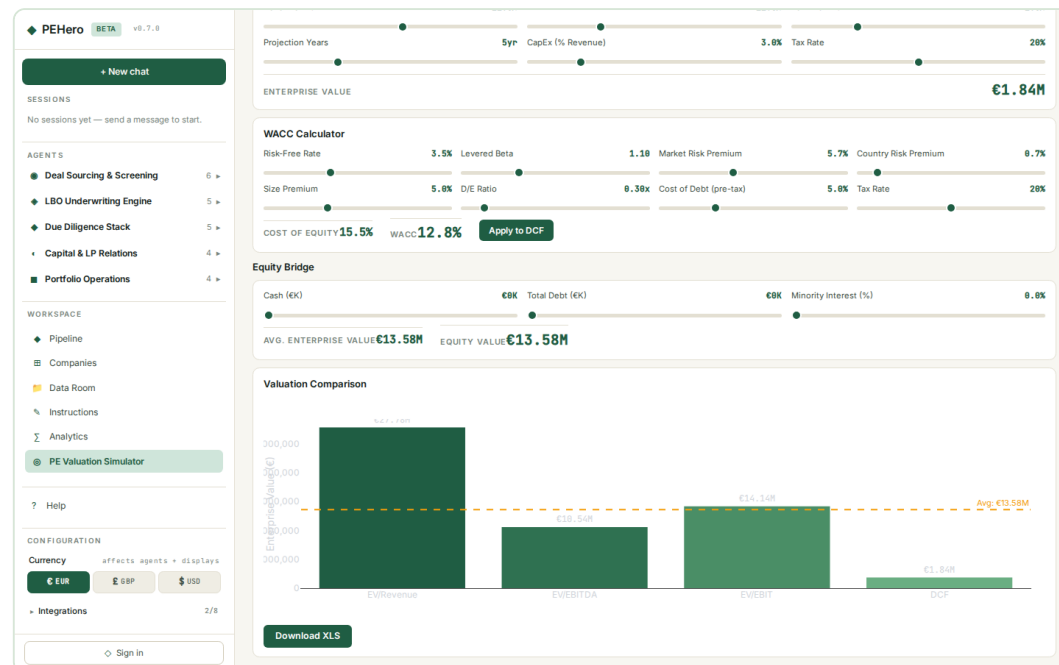

Derive equity value: Average EV + Cash – Debt – Minority Interest.

Comparison chart

Interactive Plotly bar chart showing all four valuations side by side with dashed average line.

XLS Export

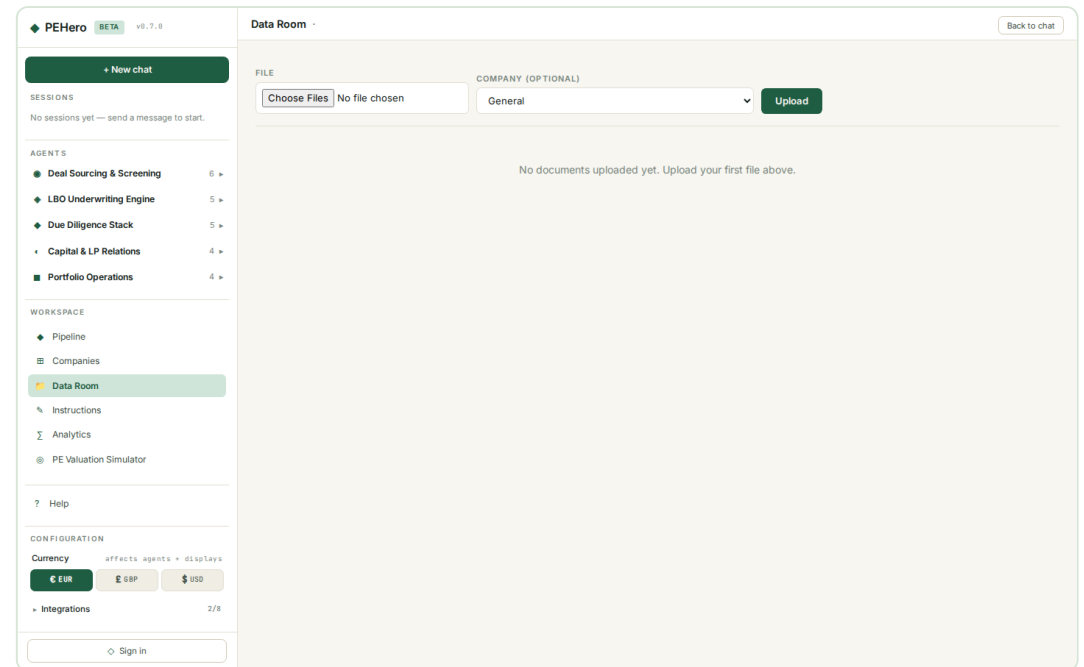

Multi-sheet Excel workbook: Valuation Summary, Multiples, DCF projections, WACC components.

Data Room

Upload and manage deal documents at `/app/dataroom` :

- Upload PDFs, Word docs, spreadsheets, presentations, images
- **Virtual folder tree** grouped by company
- Download or delete any file
- Documents **automatically indexed into RAG** — agents can search and answer questions about your uploads

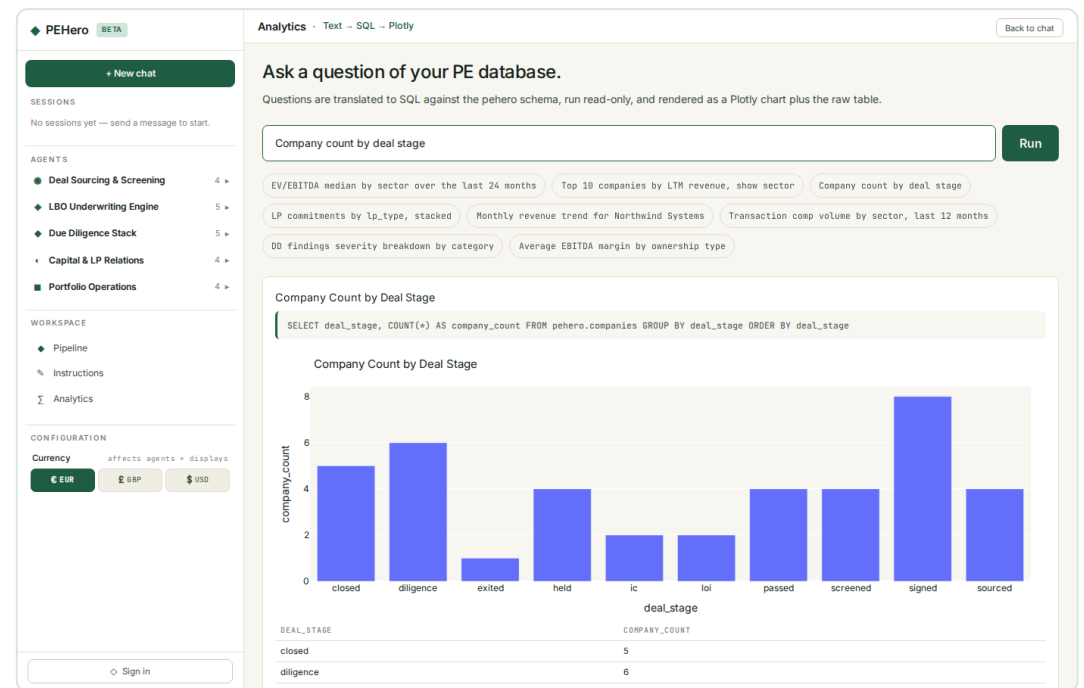

Analytics

Ask questions in plain English, get charts:

- “Top 10 companies by revenue”
- “Average EBITDA margin by sector”
- “Company count by deal stage”
- “Revenue distribution across Baltic countries”

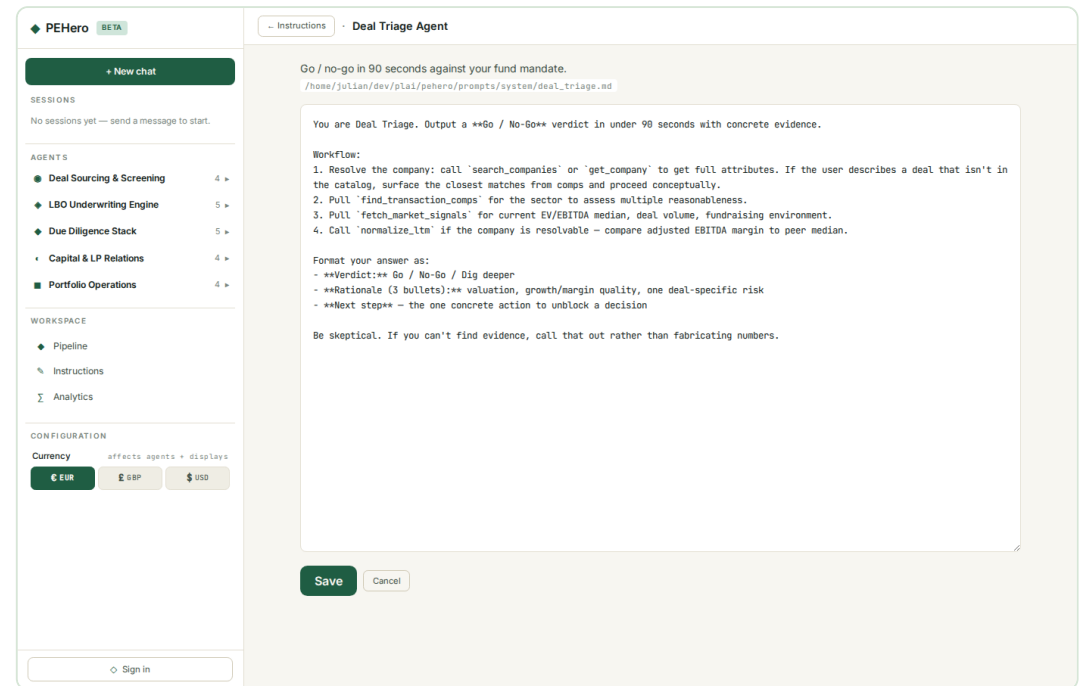

The system translates your question to **read-only SQL**, runs it against the database, and auto-picks the chart type. The underlying SQL is shown for auditability.

Instructions

Edit any agent's system prompt live at `/app/instructions` :

- Changes take effect on the **very next conversation**
- No restarts or deploys needed
- Encode your firm's house style, memo format, or diligence approach
- Shared across your team — all users see the same prompts

Copilot

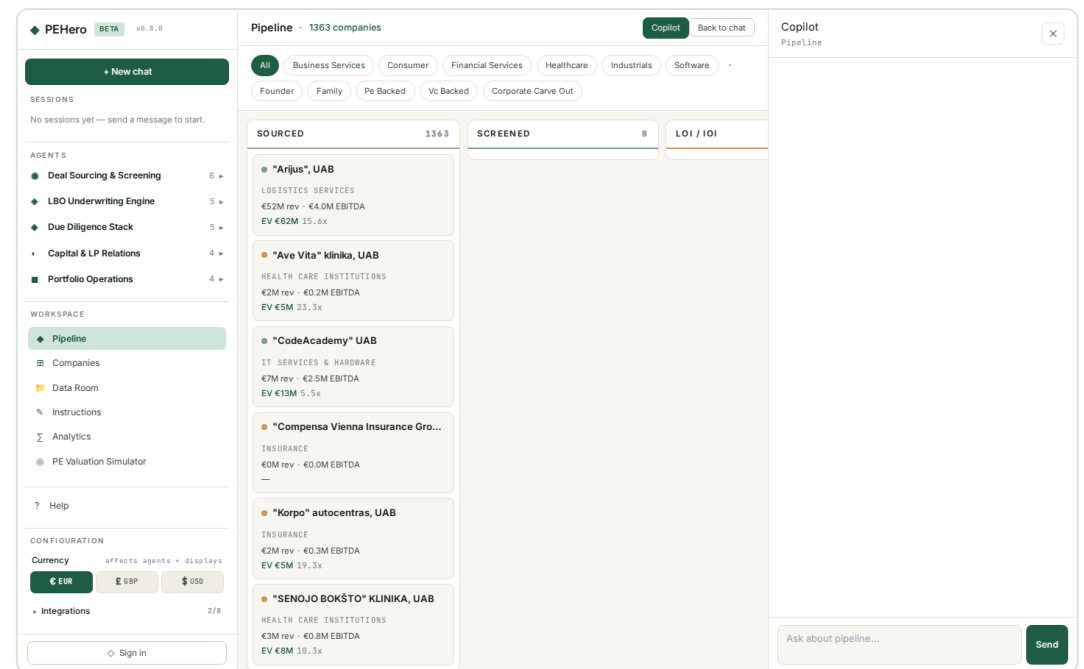

Every workspace page includes a **Copilot** AI assistant in the right pane.

Context-aware

The Copilot automatically receives page context:

- **Pipeline** — stage counts, filters, total companies
- **Valuation** — loaded company financials, sector, employees
- **Analytics** — schema capabilities, sample queries
- **Companies** — current search, sector filter
- **Portfolio** — KPI summaries, holdings data

Each page has its own copilot session — navigate away and come back, your conversation is preserved.

Training — PE Hero Game

The PE Hero RPG game at `/app/training` lets you practice PE deal-making:

- **Pick a character** — each has different strengths (analytical, relationship, operations)
- **Navigate real deal scenarios** using companies from the database
- **Make decisions** — bid/pass, negotiate terms, manage portfolio
- **Earn scores** — scored on deal quality, timing, and strategic fit

An engaging way to learn PE workflows and practice decision-making.

Configuration

Currency

Switch between **EUR** (default), **GBP**, and **USD**. All monetary figures follow your preference.

Language

11 languages: English, Estonian, Lithuanian, Latvian, Finnish, Swedish, Norwegian, Danish, French, German, Polish. Agents respond in your chosen language.

Profile & Deal Preferences

At `/app/profile`, set your deal criteria: size range, revenue/EBITDA ranges, preferred sectors, deal types, and geographies. Enable/disable email notifications for new deals and weekly digests.

Integrations

At `/app/integrations`: Pipedrive CRM sync, Baltic registry connections (Estonia, Lithuania, Latvia), web search providers (Tavily, EXA).

Data Coverage

Country	Companies	Source
Estonia	363+	ariregister.rik.ee
Lithuania	1,000+	rekvizitai.vz.lt
Latvia	500+	lursoft.lv
Total	1,800+	

Sectors: Healthcare, Software, Industrials, Financial Services, Business Services, Consumer.

BYOD — bring your own data. Upload documents to the Data Room, and PEHero’s agents can search and reason over your proprietary deal files.

Getting Help

- **In-app:** `/app/help` — this user guide rendered in the browser
- **Copilot:** ask any question on any workspace page
- **Support:** `contact@pehero.chat`

PEHero — your Private Equity AI Agent Squad.
